

Mr Musk? Hi, my name is Ismail Akram or... Izzy for short. I'm a huge fan of your work, especially your inquiry of A.I.

I think your efforts are crucial into advancing renewable energy efforts. I even incorporated your Tesla self-driving cars into a lesson for elementary school children in my afterschool teaching job. I think it's a great example of combing A.I. and renewable energy to create a safe and clean future.

As such, you've inspired me to pursue A.I. alongside Neuroscience in my Computer Science major to contribute to the "*Hard Problem of Consciousness*" dialogue. I would love to work under you as an intern. Here's my business card.
